Ayush Bhosale

Email Id:-
ayushbhosale7997@gmail.com

Greetings, I am Ayush Bhosale, a B.E student with many projects under my belt and a deep hunger for learning and Exploring new Topics. Interested in building models and websites to solve real world problems. I also bring great communication skills to the table.

EXPERIENCE

Tech Lead
I am the tech lead of the students committee SHAIDS. During my tenure as lead me and my tech team developed a new Website for the committee and arranged 3 workshops.

Intern at Prodigy Infotech
In this internship I worked mainly on analysis and visualization projects.

PROJECTS

Movie Recommendation System
Developed a **movie recommendation system** using **NLP**, trained on reviews, crew, and tags; dataset available on Kaggle.

Link:- https://github.com/AyushBhosale/MovieRecomendationSystem

Rays
Designed and developed **"Rays,"** a health and wellness platform using **machine learning (ML)** and interactive tools to empower users in managing their health.

Built an **ML-based symptom analysis system** for accurate, actionable health insights, improving access to preliminary medical guidance.

Developed **interactive games** to assess cognitive and physical functioning, offering personalized feedback and progress tracking.

Created a **NLP-powered chatbot** for 24/7 health-related support, query resolution, and wellness planning assistance.

Devflow.AI
Developed **Devflow**, an AI-driven platform to guide students in learning and skill development. Handled **machine learning model design** for personalized recommendations and managed **backend development** for seamless functionality and scalability.

SKILLS

Programming Languages:-
Python, C,
Java, Javascript

Machine Learning algorithms:-
Regression:-
1.Linear Regression
2.Polynomial Regression
3.SVM Regression
4.Decision Tree Regression
5.Random Forest Regression
Classification:-
1.Logistic Regression
2.KNN
3.SVM classifier
4.Kernel Support machine algorithm
5.Naive Bayes
and many more.

Deep Learning:-
1.ANN
2.RNN (Transformer Inc.)
3.CNN

Database:-
1.Mysql

NLP (Basic):-
Regex
NLTK
Spacy Framework

Gen Ai

Web Development:-
Django, Flask

LANGUAGES

ENGLISH
MARATHI
HINDI
